

# RUSSIANS TO GIVE BATTLE AT MUKDEN

## MUKDEN HELD BY RUSSIAN TROOPS.

Kuroki is Now Twenty-seven Miles From the City—Heavy Russian Loss.

**MUKDEN**, Wednesday, September 7.—Night (delayed in transmission).—The fighting has ceased and the Russian transport and army are moving without interruptions. There is much uncertainty concerning the movements and purposes of the Japanese. It is impossible to say definitely yet whether there will be another battle here or further north. General Kuropatkin evidently is not seeking to renew the battle, but if challenged he will not decline an engagement.

### GUARD THE PASS.

**ST. PETERSBURG**, September 8.—The brief Mukden dispatch received to-day from one of the Associated Press Russian correspondents, dated September 7, is the latest word from the front. It was probably all the censor would allow to be sent and offers no solution of the question whether General Kuropatkin is continuing his march northward.

But it seems to indicate that such a course is contingent upon the ability of Field Marshal Oyama to try to repeat at Mukden the enveloping movement which failed at Liao Yang. The only thing certain seems to be that for the moment everything is quiet.

If the armies continue to race northward to Tie Pass, forty miles north of Mukden, in the opinion of the best military critics it will become of supreme importance to Kuropatkin if the door of his retreat is closed there. In the event of defeat he would be forced westward into Mongolia.

It is intimated that in order to protect his army against such a possible catastrophe Russian troops from Harbin have taken possession of this pass.

### MUKDEN HELD.

**BERLIN**, September 8.—Colonel Gaedko, war correspondent of the Berlin Tagblatt, telegraphs that Mukden was still held by the Russians this morning.

### KUROKI FOLLOWS.

**ST. PETERSBURG**, September 8.—A dispatch from General Kuropatkin, timed 8:30 o'clock yesterday evening, was received later in the day. He reported that General Kuroki's army was about twenty-seven miles eastward of the railroad and that General Okru's arm was twenty miles west of the railroad. The general staff expects that a big battle will be fought.

### IN THE FIGHT.

**TOKIO**, September 8.—5 p.m.—Revised estimates of the Russian force defeated at Liao Yang place the number as follows:

One hundred and eighty-four battalions of infantry, one hundred and twenty-

### HEAVY LOSS.

**ST. PETERSBURG**, September 8.—6:28 p.m.—The best information of the War Office indicates that General Kuropatkin lost about 17,000 men during the ten days' battle at Liao Yang.

### SAVED ALL GUNS.

**ST. PETERSBURG**, September 8.—6:26 p.m.—General Kuropatkin reports that he did not lose a gun during the retreat.

### NEW COMMANDER.

**ST. PETERSBURG**, September 8.—3:50 p.m.—The Novoye Vremya to-day published an editorial urging the appointment of General Kuropatkin as commander-in-chief of the Russian forces in the Far East. Evidently this was aimed at Viceroy Alexeoff, who has repeatedly been represented as interfering with Kuropatkin's plans.

### BOMBARD TOWN.

**ST. PETERSBURG**, September 8.—Two Japanese cruisers bombarded Korsakov Island of Sankaten, yesterday and fired torpedoes at the sunken Russian cruiser Novid. No attempt was made to land. Korsakov is defended by coast batteries.

### CONVENTION AT SALT LAKE.

**DEMOCRATIC DELEGATES MEET TO NOMINATE COMPLETE STATE TICKET.**

**SALT LAKE**, Utah, September 8.—The Democratic State Convention met here today to nominate three Presidential electors, a Congressman and a complete State ticket. Judge H. P. Henderson of Salt Lake was named as temporary chairman. For the Governorship James H. Moyle of Salt Lake and William M. Roylance of Provo were the leading candidates. Rufus S. Wells, brother of Governor Wells, was also prominently mentioned. The friends of Mr. Moyle made confident predictions that he would be nominated on the first ballot. There is no opposition to Judge O. W. Powers as Congressional nominee. There was some talk among the delegates today of the possible effect on the nominations of the organization of the anti-church party in Salt Lake last night.

**GENERAL KUROKI.**

**ST. PETERSBURG**, September 8.—General Kuropatkin's official report sent from Mukden during the evening of yesterday, announcing that the whole of his army had arrived at Mukden and was taking up positions around the city, and adding that the army had not lost a gun during the retreat, relieved the public anxiety and put an end to the many alarming reports which had been current here.

From the General's report it seems evident that Kuropatkin is preparing to meet the Japanese again, should Field Marshal Oyama continue to press northward.

## OLD GENTLEMAN IS SMOOTH.

LUDWIG GEBHARDT IS ALLEGED TO HAVE PAVED WAY WITH BAD CHECKS.

Ludwig Gebhardt, an elderly German gentleman with a gentle appearance, made the acquaintance of John Tisch, proprietor of the barber shop on the corner of Fourteenth and Broadway, and through Tisch made the acquaintance of Charles Smith, the Broadway clothier. Both men cashed checks for Gebhardt according to their stories, after which Gebhardt disappeared. It is not known at the present time whether the elderly German has put in circulation more worthless paper or not.

The alleged check operator represented to Tisch he was a retired wine importer of New York, who was enjoying life in a leisurely way in California. His credentials were apparently good and both men found their acquaintances congenial. Gebhardt, after two weeks' acquaintance, stated he was a trifling short of funds and asked Tisch to cash a check of \$35 drawn on the Fifth National Bank of New York. Tisch cashed this and at Gebhardt's request accepted a sum of \$100 in Smith's clothing store. The smooth old gentleman ordered a few trifling goods and departed. The next day he called again and bought more goods. The two purchases amounted to \$7. Gebhardt accepted the sum. The checks came back from New York marked no funds.

In the meantime Gebhardt had disappeared.

## NARROW ESCAPE IN A RUNAWAY.

BERKELEY. September 8.—In a runaway accident that held hundreds of spectators spellbound at the corner of Shattuck Avenue and Center street to-day, the two-year-old daughter of Mr. and Mrs. Edward Taylor of University Avenue and Milvia street had a narrow escape from death. While sitting in their carriage the Taylors were run over by a grocery wagon driven by a young man named Ed. Dager. The impact of the colliding rigs caused the child to be thrown to the ground beneath the feet of the horses. Although the animals were excited they miraculously escaped being stepped on and scrambled out of harm's way just as her father leaped to her rescue. Mrs. Taylor was prostrated at the sight of the danger which threatened her child and fainted.

The spectators were loud in their denunciation of Dager, whom they claimed caused the runaway through his unmerciful treatment of the horse he was driving. He belabored the animal on Center street until it finally ran away with him. Losing the lines he was about to jump from the vehicle when it dashed into the Taylor carriage.

The grocery wagon was wrecked and Dager was thrown to the ground and stunned. He was carried into Bowmann's drug-store where he soon recovered. The Taylors threaten to cause his arrest for his carelessness.

## PARKER TALKS TO THE DISTURBED EDITORS.

Democratic Candidate Says Kind Things About Cleveland's Administration.

NEW YORK, Sept. 8.—The Democratic editors left the Grand Central Station for Esopus promptly today. Several members of the National Committee accompanied them on the trip.

Secretary Urey Woods informed the editors that their conference will take place on the steamer returning from Esopus. Every editor will be given an opportunity to say what he thinks of Judge Parker.

This will be the only conference, and the real object in bringing the editors here was to give them an opportunity of meeting the candidate of their party.

### AT ESOPUS.

ESOPUS, N. Y., Sept. 8.—Editors of upward of 200 of the Democratic newspapers representing various parts of the country came to Rossmount today to meet Judge Parker. They were received by the committee which the visit made the occasion of the first political speech he has made in many years, barring only that in which, on August 10th, he accepted the nomination.

Under the fairest of summer skies Rosemount was at its best for the occasion. Several of Judge Parker's intimate friends came from Kingston to participate in the reception of the editor. Representative Salter, who spent the night at Rosemount, remained during the day.

It was a gay party that made the trip from New York to Rosemount. The Democratic editors and their friends to the number of 665 were in the mood for a holiday. When Rosemount was reached a line was formed to march to Judge Parker's house. Josephus Daniels of Raleigh, North Carolina, chairman of the committee, and Col. John I. Martin, sergeant at arms of the national committee, were in charge.

Ludwig Gebhardt is alleged to have paved way with bad checks.

"During Mr. Cleveland's first term the average annual expenditure was about two hundred and twenty million dollars. For the past three years it has been about five hundred and nineteen millions. The governmental expenditure last year amounts up to five hundred and eighty-two millions, and is probably to be exceeded by any year since the Civil war, with the exception of the year of the Spanish war. There is an inevitable result to such extravagance. Instead of a surplus in the treasury there is a deficit of nearly \$100,000,000.

"There are 5,300 newspapers in the United States supporting Parker and Davis. Commissions are paid to them by letter and telegram, nearly one-tenth of the whole number have come in person to this Democratic mecca to convey assurances of earnest and enthusiastic support. I have the pleasure and distinguished honor of presenting Charles W. Knapp of the St. Louis Republic, who will voice the sentiments of the entire independent and Democratic press of America."

### GREETING OF EDITORS.

The greeting of the editors to the candidate was delivered by Charles W. Knapp, editor of the St. Louis Republican. The delegation, which included Ludwig Gebhardt, after two weeks' acquaintance, stated he was a trifling short of funds and asked Tisch to cash a check of \$35 drawn on the Fifth National Bank of New York, who was enjoying life in a leisurely way in California. # DEATH ENDS THE SUIT

## PLANS FOR THE NEW FERRY.

**Body of the Plaintiff is Work on the Alameda Building to Be Commenced.**

**SAN FRANCISCO.** September 7.—Coming to the city yesterday to prosecute a \$50,000 damage suit, Charles Blom filled up with liquor and his body was found floating in the bay at the foot of Howard street at 7 o'clock this morning.

It is probable that while too intoxicated to find his way he fell from the wharf some time last night. His remains are at the Morgue, where they were identified by Andrew Thorn, an attorney he had employed to sue the St. Mary's Hospital and some physicians for damages alleged to have resulted from an operation he had performed there.

The suit was to come up Monday in Judge Hunt's court and go to trial at that time. Blom's death ends the suit, and it will be dismissed. Had it been pushed to its conclusion, it is said that there would have been sensational developments.

Blom lived at Elk, Mendocino county, where he was employed by the L. E. White Lumber Company, and leaves a wife and children. He was a member of a secret society and had not been carrying one of Attorney Thorn's cards in his pockets his identity would have gone some time without being established.

## TAKES GOODS FOR JAPAN.

**SAN FRANCISCO.** September 7.—The United States Weather Bureau reports that this was the hottest September day ever known in San Francisco. At 2:15 p.m. the thermometer at the Government station, on the top of an eleven-story building, indicated 100.2 degrees, and the temperature was considerably higher on the streets.

## FINE GIFT TO THE UNIVERSITY.

**BERKELEY.** September 7.—The Department of Anthropology of the University of California has just received from Mr. Cornelius E. Rumsey of Riverdale the gift of a large collection from Chiriquí, a district of Colombia, in Central America. The collection consists of about eight hundred objects, including a fine lot of terra cotta vessels of various forms and many styles of decoration, figures of animals, whistles in the form of birds, and other interesting specimens of ancient art. There are also two large stone carvings in the form of animals. The use to which such carved stones were put by the prehistoric people of Chiriquí and Costa Rica is still problematical.

**SEATTLE.** Wash., September 7.—A message from Ames, Washington, states that the fires in that district have spread until if a north wind springs up nothing can save the forests on the Bull Run reservation. The fire is twenty-eight miles east of the city and so far has done about \$20,000 damage.

**SACRAMENTO.** Cal., September 7.—The State Board of Equalization has fixed the tax rate this year at 53 cents and 5 mills on each \$100 worth of taxable property.

## BURNED FIGHTING FLAMES.

### Swanton Postmaster Meets Death in the Forest.

**SANTA CRUZ.** September 7.—Pasquel Sonognini, postmaster at Swanton, met his death in a fearful forest fire raging in the vicinity of Big Creek. The fire started on the ridge above Big Creek upon the camp of the Big Creek Power Company, and in consequence today the Watsonville Electric plant is not running and the two electric car systems are not operating. The Western Power in Santa Cruz is also at a standstill to-day, on account of half a mile of the flume from the Big Creek dam being burned out.

The fire got started and raged furiously in a V-shape between the Big Creek and Mill Creek ditches that furnish the water power for the electric systems close to both flumes. Men from over the entire mountain, from the coast, from the Santa Cruz lime kilns and from Santa Cruz are fighting the flames. They succeeded in keeping them from the power house, but they are still on the ridges where there are valuable timber claims. The flume was burned out for a half a mile and the water is running into the road down the canyon.

Sonognini, who lost his life, was engaged in protecting the flume with Oscar Ewald, who has charge of the Big Creek plant, and John Curtis, an employe. They were so intent on guarding the interests of the company that they did not notice the sudden approach of the flames which had surrounded them. They lay in the flume until their clothes were thoroughly soaked and started to make their escape. Curtis and Ewald started down the canyon, but Sonognini started up the steep hill. He was told by his companions to come with them as he would surely be overtaken by the flames. After the fire had passed search was made for him and his body was found in the flume. His clothing was burned off and his body was charred.

## CAPTAIN CHANGED MURDERERS IN COURSE.

**SAN FRANCISCO.** September 7.—Mate Martin Swanson of the steam schooner *Wesport*, that collided in a dense fog off Point Reyes with the steamer *Ponsoni*, testified this morning that the accident would, in his opinion, have been prevented had he not received orders from Captain C. Smith to change his course. Captain Smith claims that the fatal lay with Captain C. Swanson of the *Ponsoni* and United States Inspector Boles and Bulger began taking testimony to fix the blame for the collision this morning.

## WILL NOT TREAT WITH MEN.

**SPOKANE.** Wash., September 7.—The Chronicle announces today that the Great Northern and Northern Pacific Railways have absolutely refused to treat with the committee appointed by the Order of Railway Telegraphers for the adjustment of differences. They have, however, consented to treat with H. B. Perham, president of the order. Should his efforts fail it is considered likely that the question of striking will be referred to the locals of the order or to the committee.

Pay for overtime is believed to be one of the chief questions involved.

## FUNERAL OF WM. HANDSOME JOAN PIERSON.

**INTERMENT WAS IN MOUNTAIN VIEW CEMETERY.** BEAUTIFUL ACTRESS MARRIED IN SAN FRANCISCO AT NOON.

**SAN FRANCISCO.** September 7.—The funeral of William M. Pierson, the prominent lawyer, was held today from his residence at 2314 Van Ness avenue. It was private in consideration of the wishes of the family of Mr. Pierson, and only intimate friends of the deceased were present. Beautiful floral mementoes filled the parlors, and the casket was literally covered with flowers, the offerings of many sympathizing friends.

Services were held in the hour at 11 o'clock by Rev. W. Kirk Guthrie rector of the First Presbyterian Church. At that hour the family and friends were gathered about the casket. Among the latter were several of the leading men of the community. The services opened with singing by the Oakland Masonic Quartet, "Fallen Asleep." Mr. Guthrie read from the scripture words that conveyed consolation to the family, and the quartet rendered, "Greater My God, to Thee."

After a prayer by the minister the Lord's Prayer was sung, and then a blessing was given by Mr. Guthrie, and the choir sang "Good Night." As the final hymn was rendered those present passed round the casket and left the house. The honorary pallbearers were Judge Charles W. Slack, Judge W. W. Morrow, Dr. W. S. Thorne, Captain A. M. Burns, J. S. Angue, Judge John Hunt, S. G. Murphy and C. B. Jennings.

The funeral did not leave the house until after noon, when the body was accompanied by L. H. Pierson, Fred Pierson, J. C. Ford and Guy C. Earl to Mount View Cemetery, Oakland, where it was laid in a vault to await interment when Mrs. Pierson, who is prostrated, will lay her husband in the grave.

## SENATOR DAVIS HEARD.

**WHEELING.** West Virginia, Sept. 7.—An immense crowd attended the West Virginia State Fair at Morgan's Grove this afternoon, the occasion being the presence of Ex-Senator G. D. Davis, the Democratic Vice-Presidential nominee, who was scheduled to make a non-political address. The Senator was enthusiastically received when he entered the grounds and when he arose to speak he was heartily cheered.

He referred to agriculture as "man's natural occupation and the most important and useful to mankind." He said:

"Our government expends annually for the war department \$121,000,000 and for agriculture \$5,000,000—over twenty times more for war than for agriculture, and the farmers pay a larger share of taxes than any other occupation."

**MANY NEW ARRIVALS.** Hundreds of visitors are pouring in. The hotels are besieged for rooms. Mine host Mayer of the Arlington, corner Ninth and Washington streets, says he has never twice the space he now has. This hotel is rapidly becoming in popular favor through the good service given by Mr. Mayer, who is a genial man and thoroughly familiar with what the public likes.

## TRIBUNE'S SPORT EASTERN DIAMOND NOTES.

ITEMS THAT WILL BE OF INTEREST TO FOLLOWERS OF ALL GAMES.

NOTES GATHERED BY TRIBUNE ABOUT HAPPENINGS IN BASE-BALL BACK EAST.

Andy Johnstone is walking with a cane. The local athlete hurt his leg while swimming.

The "Kid" Goodman-Abe Attell fight, originally scheduled for the 15th, has been postponed to September 23 at Butte.

Eddie Smith and Dave McLaughlin, who are camping near Maderia, have written to friends in this city. Dave says Smith is teaching the natives to box while Eddie writes that McLaughlin is telling funny stories to the Indian maidens.

Only eleven men are in the .330 class in the National League batting column. Frank Chance leads the bunch with an average of .346, while Donlin, New York, is closest behind with the average of .342. Four pitchers in the National League have perfect fielding averages.

Just at present Jack Munroe is working back in New York as a bookmaker. The miner began business in the field ring yesterday with the name Hastings posted on his slate. Munroe handled the cash himself and looked out for the odds. The day was a bad one for Munroe, however, and the betting public gave him about as bad a beating as did Jeffries.

Overall has everything in his favor to make one of the great pitchers of the country. He is not the best pitcher in this league, but for a young fellow playing his first season as a professional, his showing has been a good one. Overall is not a good pitcher when his team is behind, but once let him get a flying start and he is hard to beat. Cy Young is much the same way in their respective leagues, the American League's proposed series of games to settle the much disputed local champion ship. A challenge to that effect was sent to the Giants, and the refusal of the owners of latter to play it off to the Giants was given widespread publicity at the time. Inasmuch as the Giants have such a commanding lead now that they need win only about one-half of the games remaining to be played, while their nearest competitor must win two-thirds of their games to beat them out, it may easily be conceded that McCrea's men have already won the race, though they have not run it all the way to Pittsburgh. What the outcome of the American League race, on the other hand will be is wholly problematical and will probably remain so until very near the end of that organization's season. If the Highlanders do succeed in their ambition and bring the pennant to New York, a post series of games between the two metropolitan clubs would prove to be one of the greatest of drawing cards.

If Buchanan fails to make good, a lot of the wise ones will be fooled. This man never hurts himself a bit in pitching and has never eight or nine balls even in the middle of the plate even if Lejoe was facing him with the bases full. No one seems to be able to tell just what there is about his delivery that makes him so effective unless it is that he does not throw two balls in succession the same way. He uses an underhand, and overhand and a side arm delivery, and he keeps mixing things up until the batter does not know where the ball is coming from. His control is so good that he can snare the corners, and he never lets the ball exactly where the batter wants it.

Blankenship has the making of a big league player because of his natural speed and his good hitting. He is not a big league catcher and it is a cinch he could not hold down first base in any of the big league clubs the way he is playing now. He is such a natural ball player that the right place will be found for him, and then he will shine. Cincinnati was lucky this year in picking up young players and a lot more have been drafted for next year. As Stenfeldt, the third baseman, has been out of the game pretty much all year on account of fever contracted in Texas, he may be tried out on that corner. If the young fellow is given a chance he will make good at third, because he is fast enough and his great throwing will do the rest.

**GARDNER WILL NOT FIGHT.**

**REFUSES TO MEET CHAMPION JOE GANS IN SAN FRANCISCO.**

Jimmy Gardner has shown the "yellow."

The brother of George Gardner, that other member of the "yellow" family, has refused to come to this coast and fight Joe Gans in San Francisco as was the schedule. So the Gans-Gardner match is off.

Alex Greigans, under whose club the fight was to have taken place, last night received the following telegram from Bay Piers:

"Gardner refuses to go West to box Gans. He will not give any definite reason, but it looks like the family yellow streak. Will not bathe in blood." 128, Los Angeles, at 140. "Walcott at 124. Looks as if George sent word to Jimmy to hurt us. I am waiting an answer and will start your selection West Thursday."

Jimmy Gardner has bollered his head off to get a match with Gans. Finally it was fixed for him and now he goes and shows the yellow in him. Other things may be said about him, but he is getting away from the fight.

Greigans is trying to find another opponent for Gans. Those that want to fight the colored champion are not in hisistic class and those who are and whom Gans wants to fight will not enter the game with him because of his brown skin.

FIELDER GANLEY OF THE OAKLANDS, THE BEST BATTER IN THE RECENT OAKLAND-PORTLAND SERIES.

Oakland's fast young out-fielder, Ganley, led both the Oakland and Portland clubs at the bat during the recent series. Ganley was there with twelve hits, and he made several of them by dumping the ball in front of the plate and beating the leather to first.

Ganley is playing great ball despite all the things knocking fans are saying about him. He is in the game all the time taking all sorts of chances saying about him. He is in the game and his error sheet is wonderfully clear.

ers in the business, not only the pitchers, but those who occupy other positions on the field. A player with brains will make his way in fast company without being kept in the drudge ranks forever.

Hanlon says he will have a team next year that will be winner. Of course, it's part of the business, but with Hanlon it means more than it does with some, because he is the most uneasy and restless man on earth when he can't win. He doesn't sit down and pine and moan, but hustles around with an eye to the main chance and a determination to get something to score in his hands for it.

Ganley with a losing team will arouse every nerve in the man's make-up and there is nothing that will be left undone after that to get players who can do better the following year.

The present weak points in the Brooklyn team are well known. They will be strengthened and changed, however,

in the course of time. However, the team did not last very long, and Brooklyn relapsed shortly after this.

It may be, however, that some ball will be played by the unfortunate on this trip West, and if they should happen to strike a streak of luck, combined with a little good work by bats and arms, there's no telling but Brooklyn will get out of the doldrums.

Meanwhile, there are various deals going on for players and Hanlon expects to corral a young bunch that will raise the mischief with the National League next year. Don't know but he might that, for it is on record that young players occasionally bump themselves and stand the old-timers on their heads. There are three from Memphis, Beecher is one, Maynard, one, and the third forgotten, but he's good, according to all reports, and will make everybody hustle next year when he gets in the game with fast company.

## A Triumph for Progress.

The decision of the Supervisors to proceed at once with the construction of the Foothill Boulevard is a triumph for progress. It was in response to the overwhelming sentiment of the community which became aroused to an aggressive pitch by the eleventh-hour obstruction offered by a small group who made up in noise what they lacked in numbers. When it came to a show of hands the insignificance of the opposition was at once disclosed. The Board wisely swept aside the objections after giving them ear, and in so doing acted in accordance with the manifest wishes of the public both inside and outside of Oakland.

The incident has its moral, however, and affords a pleasing evidence of the temper of the people of Alameda County, who are at this time in no mood to balk at trifles or to be misled by persons of narrow views or with personal grievances to exploit. The entire community is astir with the spirit of progress. The desire for improvement is so strong and so universal that it is not to be turned aside from its purpose. Public opinion has been mobilized and given a start in the right direction, and the movement is acquiring additional momentum day by day. Each successive step is a happy augury for the future, another guarantee that the communities on this side of the bay are determined to make the best of their opportunities.

It is to be hoped that no further effort will be made to retard development or throw obstacles in the way of the plans of improvement now pending.

Let us have peace and good feeling. If we cannot all agree as to particular measures, we can at least do justice to each other's motives and cultivate a spirit of cordiality.

By the purchase of the Alton road, the Union and Southern Pacific system obtains a through line to Chicago, and also direct lines from the lake metropolis to St. Louis and Kansas City. Despite this new acquisition, the Harriman syndicate is still without a link to connect its Texas system with Kansas City. By absorbing the Kansas City Southern and constructing a short connection to Dallas direct lines from Kansas City to Galveston and New Orleans can be obtained, and this is the next development that may be looked for. By such an acquisition a direct through line from Chicago to the City of Mexico can also be obtained. In playing the railroad game Mr. Harriman has as yet met with no superior.

Mr. Peter J. Crosby performed a public service in making his convincing argument before the Board of Supervisors in behalf of the Foothill Boulevard. He appeared voluntarily and without fee as the champion of public improvement, and he stated the reasons for the construction of the highway with such clearness and precision that his argument carried a convincing force. He had made a careful study of the proposition and his presentation of the case left nothing to be desired. He set an example worthy of commendation. Mr. Crosby has earned the thanks of the community by lending his best efforts to the cause of public improvement.

Now let us vote the bonds and carry out the whole program of public improvement. Let city and county go forward together in the progressive march.

Chaucey Depew has delivered a crushing reply to David B. Hill's attack on the President. This is good as far as it goes, but it is to be hoped that he will pay the man who wrote the speech without having to be sued for the bill.

## The Example of Galveston.

Though lacking in the morbid glamor that surrounds death in the flame and smoke of cannon and the spectacular effects produced by the pomp and circumstance of war, peace has her victories equally heroic and far more worthy of the admiration of mankind. One of the most notable peaceful victories in the annals of history has just been achieved by the people of Galveston, Texas. It is a story that reads like a romance.

In this month of September, four years ago, Galveston, a city of 38,000 inhabitants, was almost completely destroyed by a hurricane which swept the waters of the Gulf, lashed to frenzy by the tempest, over the entire city. Upwards of 1,000 lives were lost and property to the value of \$16,000,000 destroyed. Amid the wreck of their homes and the thousands of their dead, the survivors were faced with the problem of rescuing the site of their city from the engulfing waves. Unless security from similar inroads of the sea could be assured, Galveston, as a commercial center, could no longer exist. It was a question of fencing out the sea or abandoning the city.

The people of Galveston decided to fence out the sea. So they began to rebuild their homes and business houses and at the same time to construct a seawall to encircle the seaward side of the city. This wall has now been completed. It is 17,500 feet long, 16 feet wide at the base, and 17 feet high. It was riprapped by immense blocks of granite. It cost \$1,500,000. The government is now building an extension nearly a mile and a quarter in length.

Now the people of Galveston are at work raising the grade of the city several feet. This is done by pumping sand from the bottom of the bay into certain squares at a time. The contract price for this work is \$2,080,745, and will necessitate the raising of 2,156 houses. The whole surface, including streets, alleys, sidewalks and building sites, will be raised an average of six feet. Everything is done at public expense. The total amount of expenditure on account of seawall and grade raising will be \$3,505,040.

This is the load assumed by the people of a wrecked city numbering, after the calamity of 1900, less than 30,000. It is a trifle more than Oakland, a prosperous city of 90,000 inhabitants, proposes to spend on parks, schools, public buildings, sewers and other improvements. The achievements of the Galvestonians is a shining example for Oaklanders to study at this time. We are in the full tide of prosperity and hope. The people of Galveston began their wonderful work of reconstruction in the sorest stress of defeat, in the darkest hour of calamity, when bereavement and financial loss cast the shadow of despair over the scene.

But what has it availed the people of Galveston to rebuild their city and render it secure against future calamities, such as the one which once overwhelmed it? The answer we find in the Galveston News of September 1, reviewing the trade and shipping returns of the previous twelve months—the trade year in the cotton ports ending with August. During the previous year the bank clearings aggregated \$445,588,000, an increase of \$3,403,000. The value of the tonnage passing over the wharves reached the enormous total of \$544,734,044, an increase of \$65,833,337. The value of the exports to foreign countries during the year was \$144,997,958, placing Galveston third in the list of American exporting ports. Cotton and its by-products were exported to the value of \$121,896,176, an increase of \$37,000,000. Breadstuffs to the value of \$17,385,67 were exported, also lumber, oil, livestock and provisions. The port received 2,406,031 bales of cotton, of which 1,881,714 bales were exported to foreign countries. Galveston has sixty-one lines of steamers plying to foreign ports, two regular lines to New York and seven coastwise and Gulf port lines. Her grain elevator capacity is 4,000,000 bushels.

Can anyone study these figures without admiration? Can anyone believe after doing so that it does not pay to improve? The best way to honor Galveston is to emulate the invincible spirit of her people, to imitate her enlightened enterprise.

## A Rebuke to Democratic Editors.

A good answer to the Democratic papers which have been criticizing Secretary Shaw for making campaign speeches is given by the New York World, one of Parker's chief journalistic supporters. That paper says:

"The World cannot wholly agree with certain critics' critics of the administration who profess to find in the political activity of the Cabinet officers a violation of the spirit of the Civil-Servants law. It is a far-fetched criticism. There is no violation of the law and no impropriety in a Cabinet officer's taking the stump."

"On the contrary, there is excellent reason why a Cabinet officer should make speeches in a campaign. Such activity is wholly in harmony with the political traditions of the English-speaking peoples, who have always insisted that their public servants give from time to time an account of their stewardship."

In this campaign the President and his advisors are on trial, as it were, and fair play and common sense dictate that they should be heard in their own behalf. In his speech opening the Democratic campaign in New York ex-Senator Hill made a direct assault on the President and the Postal and Justice departments. It is absurd to say that the heads of departments have no right to refute such attacks and show the baseness of the charges. The Democratic organs would deny Republican Cabinet officers the right the law gives the commonest criminal.

William J. Bryan says he firmly believes Judge Parker will be elected. But Bryan is chiefly notable for being a mistaker in his beliefs.

Public sentiment in Alameda is not just now in a mood to be turned aside from progressive action by obstructionists, some of whom are actuated by the mere mulish spirit which insists upon being contrary for no well defined reason.

John Markle, the coal magnate and associate of Baer is wearing a Parker badge. It ought to be a danger signal to workingmen.

Champ Clark classes California as a doubtful state and the St. Louis Globe Democrat classes Texas as doubtful. The inference is that Clark knows no more about California than the Globe-Democrat does about Texas. But perhaps both are speaking the language of the wogglebug.

## BABY SLEEPS.

Knowing naught of joy or care,  
Baby sleeps.

Sails on seas of pearly cloud;

Floats through dreamland dim and fair;

Vaporous landscapes round him crowd;

As he rocks o'er golden deeps,

Beats his half-formed senses sleeps.

Baby sleeps.

Har! that little troubled sigh,

Baby dreams.

Gathering round from dreamland's rim.

Earle shapes are drawing night.

Distant, vague, they menace him.

Ah! but mother's sheltering arms

Guard him and dispel alarms,

In baby's dreams.

Incense seems to fill the air;

Baby smiles.

Angels unseen, near his cot

Mystic converse with him share.

Visit baby's realms unsight,

None may see their forms but he  
Or hear them sing his lullaby

As baby smiles.

With a sigh of soft content,

Baby wakes.

Who, but the mother, babyland,

Views not yet a potent hand,

Guarding him with gentle might

In his slumbers, pure and light.

Till baby wakes.

MURDOCK AND M'GAVIN ARE  
DEFEATED.

Surprise of the Tennis Tournament  
is the Vanquishing of These  
Crack Players.

Percy Murdock and J. Drummond MacGavin met defeat at the hands of Robert Whitney and C. Griffin yesterday in the doubles on the tennis tournament being held on the San Rafael courts. Their defeat was the surprise of the tourney for it was figured by the knowing ones that the Murdock-Whitney team would contest for the championship.

All through the first two sets MacGavin and Murdock seemed overconfident. The loss of the first set did not seem to trouble them much. They started out well in the second set and soon had the score to 4-2 in their favor. Here they took a slump and failed to get another game in the set.

The third set was a repetition of the second, with MacGavin and Murdock again going into the lead at 4-2 and Whitney and Griffin winning the next four games straight.

It must be stated for the losers that they were decidedly off in their game. Murdock in particular played poorly. Then too the death of their doubles partner in the play of MacGavin during the first four days of the tournament was luck. He missed many smash and dives which on the previous days would have been sure points.

On the other hand, Whitney and Griffin showed to better advantage than ever before. The former played in much the same form as when he held the Coast championship some years ago with his brother, George. His driving was particularly accurate and his overhead work was good. Young MacGavin held his end and was little behind his more experienced partner in

point of skill.

As a result of their victory Whitney and Griffin are now in the finals, where will meet the winners of the match between H. Rolfe and C. Gardner and W. Allen and G. Baker for the championship.

Most of the day was devoted to the ladies' events and the mixed doubles.

Miss Violet Sutton and T. Hendrick continued their good work of the previous day and defeated Mrs. Bruce and H. Long.

Mrs. Seymour and C. Griffin won easily from Miss Hotchkiss and H. Long 7-5, 6-3; Mrs. Seymour and C. Griffin beat Miss Hotchkiss and W. Allen 6-4, 6-2; Miss F. Sutton and F. Elliott beat Miss S. Ratcliffe and C. Dunlap 6-1, 6-4.

Ladies' singles—Miss Florence Sutton beat Miss Violet Sutton 6-1, 6-2.

Ladies' doubles—Misses Ratcliffe and Mrs. Hendrick and Mrs. Seymour 7-5, 6-2; Mrs. Bruce and Miss V. Sutton beat Miss Valleau and Miss Hotchkiss 5-3, 5-7, 6-4.

Men's singles—T. Hendrick beat R. Hunt 5-7, 8-6, 6-2, 6-2.

BERKELEY September 8—Ambitious student experimenters of the University are endeavoring to exterminate the mosquitoes that are bothering the inhabitants of the San Mateo region, according to a class of six students accompanied by Professor Quarles sent to San Mateo every Saturday to do field work in that vicinity.

Over a half dozen species have been found there in abundance, including the malaria mosquito. Some of them are migratory, and others are not, thus necessitating a close study of their habits and breeding places in order to fight them advantageously. The work done this fall will be merely of preliminary nature as the actual campaign against them will not commence until next spring.

Practical work is being carried out successfully by the Department at San Rafael by a man on the ground. Crude oil is poured on the swamps where the larvae breed and the insects are then killed. Nothing can be done to exterminate the adult mosquito.

Besides the students who sell the peanuts depend partly on that occupation for a livelihood, it was not thought necessary to stop their sale entirely.

So until 4:30 p.m., the time the squad arrives on the field, men will be allowed to buy peanuts but not after.

The committee announced that if the consumption of peanuts thus limited still interfered with rooting they would not be allowed at all.

Despite the exceptional heat of yesterday afternoon, nearly two hundred men turned out to start the new custom of regular bleacher rallies with a vim. The hills reverberated with the

sound of a smoke.

Phil Catey '04, baseball yell leader made a speech on college loyalty as displayed on the bleachers. He said:

You are not yet for us, but the University is.

He said, "I am sorry for myself and the University that is the reason you are selling."

Yell-leader Bulkeley announced the selection of Walter De Leon '06 and Sunset Rust '06 as assistants. They

said a song and yell and the bleachers showed that the choice was entirely right.

Professor J. B. Lanfield spoke on training. He said: "The whole spirit of training depends on the student body. Don't encourage men on the team to break training rules. Don't offer them a smoke."

There is a second charter in circulation for a second assembly at Oakland, and upon the charter of a number of the leading citizens of this city appear. The Senate officers have also been requested to issue a charter for a German-American assembly.

The officers and team of Forest Camp will be present on the 12th and will visit Bay Tree Camp on the 26th, initiating a class at each place. Next Monday evening will be given over to the team for drill and a full attendance of the entire membership of the team is desired.

#### FOREST CAMP, NO. 7.

The regular meeting of Pacific Lodge, No. 7, A. O. U. W., takes place this evening in Fraternal Hall, 1155 Washington street. To accommodate Athens Parlor, N. S. G. W., which desire to entertain its guests who are here to celebrate Admission Day, Pacific Lodge has given up its room for a day and will meet in the banquet room on the 12th of this month. Thursday evening Pacific Lodge will have an open meeting, having as visitors Ivy Lodge, No. 4, Degree of Honor, and the families of their own members. A pleasant evening was spent, concluding with refreshments in the banquet room.

#### OAKLAND LODGE, I. O. G. T.

Oakland Lodge, No. 162, was favored with visitors from Berkeley and San Francisco last Friday evening. A good many of the members expect to avail themselves of the 50 cent round trip rate to Vallejo on the General Friable, secured by Forward Lodge of San Francisco, to take place Friday, the 9th, at 11 a.m. Those who have never been to our orphans' home should not fail to go.

#### A NEW DEGREE TEAM IS TO BE ORGANIZED AND OAKLAND LODGE WILL BE HEARD FROM.

#### GOOD FORESTERS.

Last Friday evening the combined courts of Alameda county, consisting of all the various subordinate courts of this side of the bay, met in grand conclave at the Knights Templar Hall, and came to an agreement to pass upon the various courts as they proceeded with the class initiation of no less than 200 members, who had placed themselves under the regular courts' jurisdiction and class affiliation. The high court officers were all well pleased with the showing made by the various courts. The committee having the affair in charge had spared neither expense to make this the red letter day in Fraternal.

#### They Secured Reed's Hall, which was tastefully decorated, representing a typical forest.

When the degree team of Court Alameda, Captain Johnson, presented the work on the floor with the aid of the proper calcum lights, the scene was indeed imposing.

#### GOOD TEMPLARS.

Veteran Lodge No. 7, I. O. G. T., met last night, instead of tonight, and the change of meeting caused some of the members to forget, therefore there was a slim attendance at last night's meeting.

The hall was engaged for the evening before Veteran Lodge took it, and it was agreed that this week Veteran Lodge should have Wednesday evening. Hereafter the meetings will be on Thursday evening.

The Veterans will go to Vallejo on Saturday of this week to visit the Good Templars' Home for Orphans. The trip will be made on the steamer General Friable from Mission Street Wharf, San Francisco, at 9:30 a.m. The round trip 50 cents. All friends of the order, as well as Good Templars, are invited to go on this trip, and see the little waifs that the Good Templars are caring for in that beautiful home on the hill.

Fashion Says

# Trimmings

The distance from the severe, manly styles of a year ago lengthens. Each season the elaboration of suits and frocks increases till today they are rich with garniture. Too great emphasis cannot, therefore, be laid on the selection of trimmings.

Persians continue to hold first place in Fashion's court. Cashmere and velvet bands, broderied in colors combined with gold thread, are among the French novelties. The use of gold thread embroidery, by the way, bids fair to have great vogue.

Another European production is black braided trimmings. Among them, flat effect in diamonds and squares seem to have the call. In this connection, we should mention the black and colored silk embroideries, which will have much popularity for use on lighter weight fabrics.

For evening and afternoon wear, spangles have again come to their own. Spangled edgings, spangled medallions, spangled bands have been used freely on the costumes seen on the opening nights in the New York play houses. That the Coast will follow this lead, there can be no doubt.

## HAS HILL SOLD VESSELS TO THE RUSSIANS?

**It is Reported That He Has Disposed of Two Large Steam Craft to the Czar.**

NEW YORK, September 8.—Reports are in circulation—supposedly emanating from trustworthy sources—says the Herald, that two of the largest steam vessels ever built on this side of the Atlantic have been sold by James J. Hill to the Russian Government. The ships in question are the Minnesota, recently completed, and the Dakota, now on the stocks at New London, Conn.

It was even stated that a local ship broker was to receive a commission of \$35,000 for conducting the sale.

When asked about the reports, Mr. Hill declared emphatically that they were untrue.

## LEGAL TO BE DISORDERLY IN A SALOON.

**New York Judge Rules That You Can Create a Rough-house and not Violate Law.**

NEW YORK, September 8.—Magistrate Pools has laid down a unique ruling in cases of saloon brawls.

Two negroes were brought before him, one having charged the other with disorderly conduct and attempting to cut the plaintiff with a razor.

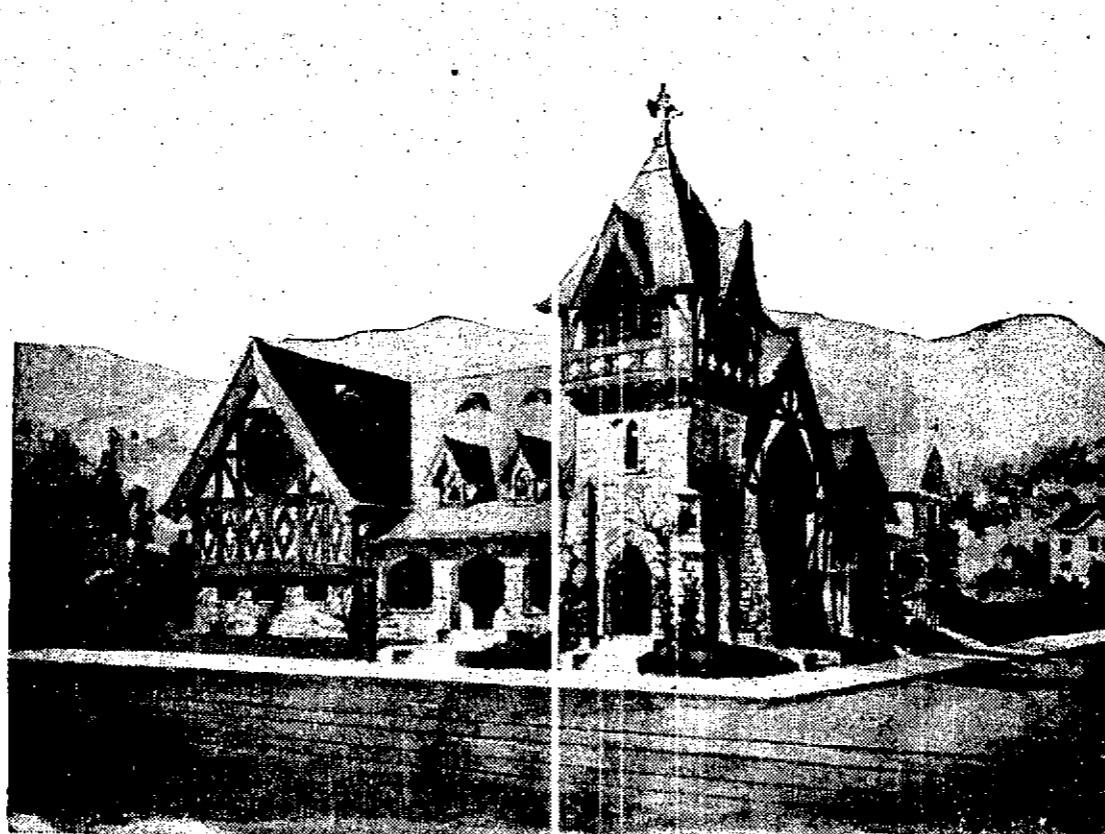

The fight occurred in a saloon where the negroes had been drinking together. When this was made known the magistrate ruled:

"A MAN CANNOT BE DISORDERLY IN A SALOON," AND DISMISSED THE CASE.

## DAMAGE DONE BY GRASS FIRE.

BARNs ON THE MAGEE RANCH ARE TOTALLY DESTROYED.

The grass fire, which broke out about 11 o'clock yesterday morning on the ranch of W. A. Magee, in the Contra Costa foothills, north of Fruitvale, The Magees lost eleven sets of horses and twenty tons of hay.

NEW EPWORTH CHURCH M. E. SOUTH.

The new Epworth M. E. Church South, auditorium has ample choir and organ in bank to order of the agent of the Mission Boards in California. The remaining amounts necessary will be voted as needed.

Rey. J. C. Wootten, who was for four years pastor of Asbury Church in Oakland, organized Epworth Church, Berkeley, last November, with a charter roll of nearly fifty members, which has since increased. The board of trustees are William H. Waste, president; Dozler Finley, secretary; C. E. Towson, treasurer; W. D. Douglas, V. L. Weels, J. A. Shipe and Pettygrove.

The credit of the successful inauguration of the church must be given to Dr. C. F. Ried, D. D., of Oakland, the Pacific Coast agent of the Board of Missions, who has labored untiringly in this behalf. The congregation will worship in the Sunday school rooms at Christmas, but the main part of the church will probably not be ready for some time after that.

## MOB THREATENS TO LYNCH A MOTORMAN.

**Carman Who Runs Over Little Boy Faces Angry Crowd Until Rescued By Policemen.**

CHICAGO, September 8.—Fifteen hundred residents of the North Side Italian Settlement have threatened to lynch the motorman and conductor of a trolley car, which ran over and killed Manlio Manzello, 7 years old, and seriously injured Stephen Lascola, 6 years old.

The children were crossing the street when they were struck. News of the accident spread rapidly and the men of the district gathered. Threats were made against the motorman and the conductor, but the mob was checked by Patrick Reardon, who had carried the Lascola boy to the sidewalk. Reardon leaped on the front platform of the car and told Motorman Axel Anderson to arm himself with the controller and strike the first person who attacked him.

Anderson followed directions and was guarding himself against the angry crowd when a wagonload of policemen reached the scene. Anderson and the conductor, Fred Smith, were taken to the station.

## EARLY MORNING FIRE IN STORE.

At 2:30 o'clock this morning a fire broke out in the basement of James Cahill's paper and printing establishment at 408 Twelfth street.

The department was quickly on the scene, when it was found that the fire was a case of spontaneous combustion originating in a barrel of waste and refuse.

The blaze was soon extinguished, and beyond a slight flooding and scorching of the surroundings, and the breaking of some window glass, no damage was done.

## ELECTED PASTOR.

At a meeting of the trustees of the Tenth Avenue Baptist Church last night, Rev. Harry L. Boardman, until recently of Everett, Washington, was elected pastor of that organization. Mr. Boardman comes here with an excellent pastoral record and much creditable work is expected of him in his new connection.
